

Professional Profile

I am a hard working Front End Developer with a flair for creating elegant solutions in the least amount of time. With a strong foundation in HTML, CSS, JavaScript, and proficiency in React, I'm committed to crafting exceptional user experiences and translating design concepts into responsive, interactive, and visually stunning web applications.

Highlights

- React
- NodeJS
- ExpressJS
- Javascript
- SASS
- TypeScript
- MySQL
- MongoDB
- Git

Career Development

Web Developer

Portfolio Website

- Developed a portfolio website to showcase my skills and projects
- Built with React, SASS, and TypeScript
- Responsive and interactive with animations composed with framer motion

CookBook

- Developed a Full Stack application
- Built with MERN stack
- Complete CRUD functionality, hosted on netlify and Render.com
- Demonstrated the ability to work with external APIs and handle data.

Open Source

- Actively contributed to open-source projects on GitHub, including bug fixes and feature enhancements.
- Collaborated with experienced developers, learning best practices and coding standards

Labor Day Matchup

- Created a React app for making tournament matches for an annual labor day event
- Demonstrated problem-solving and algorithmic thinking skills
